Illustrious Master,

It is with an intense admiration feeling that I express our deep gratitude for the magnificent gift of the paintings, that we received through Donna Antonella Scelsa. They have been located in the meeting room of our center, waiting for a definitive setup in a more suitable place.

The warm colors, the fabulous meaning and deep spirituality they express take our heart, that would like to welcome such treasure with a suitable comprehension and sensibility.

I thank you, illustrious Master, in my name and on the part of the whole association and LUMSA, but also in the name of the people that, when admiring these masterpieces, will be induced to ponder about the divine reality of a Love that for 2000 years has given himself to save mankind, without surrendering to the profanation and the destruction by which many people answer, torturing and sacrificing myriads of brothers, victims like the Son of God.

Thanks and God bless this offer of a human and evangelical message to those who have a heart to listen.

Best regards.

*Marinella Andreotti*
